THE TABLE MOUNTAIN GROUP OF

COPPER MINES. A FEW months since Capt. Jack Bur gess, formerly chief of scouts at San Carlos, came to this city, He represented himself and those interested with him as being the owners of the Table Mountain group of copper mines, situated some 70 miles due north from here, These properties were, he said, of great value, but as himself and partners, had in the development thereof, reached the extreme limits of their bank secount, they sought te make arrangements by which they could reduce 1000 tons of high grade ore at the Paul smelter, and promised a still larger amount if satis-

factory results were obtained, that will shut out from American com-This to the general community, was petition the convict labor of other lands; the first known of the Table Mountain group of mines, although they had been almost continuously worked for the pre-United States to protect themselves peeding six years, and the work of development done was proportionately extensive. But so quiet had this work been carried on that the statements of Capt. Burgess, notwithstanding their appardiversity of industrial pursuits may be ent truthfulness, were received with no stimulated, new, varied, and important little allowance for the well known enthusiam of Arizons prospectors.

Hon. Chas. R. Drake and Mr. B. H. Paul gave the matter favorable consideration and the former in company with Capt. Burgess, visited the property, and to put it mildly, saw in it one of the great futures of the country. After a somewhat lengthy and painstaking examination of the various claims comprising the group, he was surprised and pleased with the vastness of the proposition that opened out before him, but too big he acknowledged, for himself and friends to handle unless ontside capital could be enlisted. Together with Mr. Paul he visited the property on subsequent occasions and advanced money for further developements, which when made uncovered larger ore bodies than had hitherto been known to exist, and still further enhanced the value of the claims. He then submitted the entire group for examination to Dr. Alexander Trippel, one of the best authorities on copper mining and copper ores in the United States, who made an exbanstive report thereon.

In the meantime Col. John Weir, a well known New York capitalist, examined the mines. The impressions made were of so favorable a character that he halt to industrial enterprise and materdetermined upon their purchase and on Saturday last the transfer was legally and a people to the condition of dependmade and yesterday he left for his home.

The prospects for another great cop- that, in a word, in so far as our domesper company successfully operating in the interests and domestic trade and in-Arizons are exceedingly favorable, the two great requisites for such an undercoming. Col. Weir himself, a man of ent on the will of an English sovereign. large means, has unlimited capital at his disposal, while the ore bodies of the mines in question are high in grade and practically unlimited in quantity. The ores are oxide in character and happily so constituted as to require no additional fluxing, and carrying a high per cent. in copper.

The group comprises six full claims, the Table Mountain, La Porte, New of the homes of this great American York, Greenville, Capital and Bridwell mines. It lies on the eastern edge of of every nationality, creed and color-Pinal county, in the Galiuro mountains, and is beautifully situated, at an altitude of 5,200 feet, in a thick growth of oak, juniper and cedar trees. Springs of clear, sold water run out of every

Senator Sherman's resolution looking ommittee on finance, reported back to to better commercial and political relations with Canada has been reported to the Senate from the committeen foreign affairs without rec mmendation. It is morrow or Friday, and gave notice he reported without recommendation because the committee has not had time to consider it, and several Senators schedules and administrative features of asked to have it reported immediately the present law, promising a reenact- in order that they might speak upon it. ment of all such features as in the There is a probability that after all the ught not to be charged. According to speeches are delivered the resolution stimate made by the committee the bill will be recommitted to the committee

The Senate has passed the bill giving Mrs. General Sheridan an annual pention of a hand:ul of copperheads and ex-rebels, headed by Representative Kilgore, the bully of the House, it will not get through the House at the present sussion, unless it can be got up some day when all the objectors are away.

Mr. Hoar's bill providing for inquest under national authority was up in the Senate Wednesday. Senator George, of Mississippi, made a bitter speech against San Francisco, October 3. - Best & it, in which he indirectly defended the people of the south for political murders 17.00; Gould & Curry, 2.75; Hale & in that section, which have made some Norcross, 4.80; Locomotive, .10; Peer, such law as that proposed by Senator 45, Peerless, 1.65; Potosi, 2.20; Ophir, Hoar's bill a national necessity.

The House has passed a bill forfest ing certain lands granted to the Northern Pacific rattroad, the conditions of the grant not having been fulfilled. The lected by the executive committee of same or a similar nill has been favora-Justice Matthews, of the suprem-

court, has been quite ill this week, but is now better, though still confued to John H. Oberly, the Illinois politician,

day to hear Blaine's opening speech in who has been drawing his salary as one Michigan. From the moment when he of the civil service commissioners for appeared at the entrance until he step- several years, although by character and ped upon the platform, the great audi- associations notoriously unfit for the pcence maintained continuous and en- sition, has been nominated commissioner of Indian affairs. The entire Michigan delegation in the

House has gone bome to take part in the The Republican substitute for the Milis bill has been laid before the full finance committee of the Senate, and

the Democratic members of the commit tee, who have not yet prepared their report, so certain were they that the Republicans would not report a bill. The Los Angenes, Oct, 4 .- A prize fight oc- bill will not be made public until it mred early this morning in a dance hall is reported to the Senate next week, but ribly published and gave up the fight at | hol used in the arts. The bill is a very long one, as it revises the whole tariff schedule. Republican Senators say that the hill will be passed before any adnrnment takes place.

I have it from what I regard as a trustworthy source that Mr. Oleveland dissatisfied with the management of

So dilatory has congress been ing the regular appropriation bills at this session that it has been necessary to pass five joint resolutions making as many extensions of the old appropriations. Representative McComas, of Mary-

land, came very near having a personal encounter on the floor of the house with Representative McMillan, of Tennesses this week. It all came about through Mr. McComas asking manimous con-sent to introduce a resolution fixing two days in January for the consideraion of the Blair educational bill. Mr. McMillan objected and several bitter things passed between the gentlemen when they started towards each other with clenched fists At this point several members got between them and prevented further trouble. The Oklahoma bill was up in the

onse Morday and caused quite a rumpus. Mr. Holman endeavored to secure mmediate consideration of the senate oill extending the laws of the United States over the public land strips, but The Treasury department has submit

bringing the votes of the electors for President and vice-President at the com ing election to the seat of government mile one way. The messenger from amount, \$1150, and the me-senger

from Salem, Oregon, the largest, \$988-Senator Canadler has introduced a resolution authorizing the senate committee on privileges and e e sion to 1 it during the recess and to proceed to such places as it may desire to take testimny in investigating the Louisiana on rages. It does not seem at all likely that there will be any recess this year. although many members think there will be one of ten days to enable mem

bers to go home to vote. Senator Stewart has introduced a bill for the exclusion of Chinese laborers. It embraces many provisions in former bills, and proposes to abrogate all treaty stipulations relating to the entry of hinese laborers into this country, and declares that hereafter the coming of such Isborers and their right to reside in the Umited States will be regarded

and determined by the laws of the United States. It also requires every Chinaman now in this country except members of the legation, to be registered and to take out a certificate of registration within six months, the certificate to be surrendered to the customs officers if the holder shall leave the country. Senator Plumb made a carefully pre pared speech in the senate in which he

showed the faisity of the claims of the democratic party in relation to the publie lands, Mr. Plumb showed from the regards that almost every law ever enact ed in favor of additional privileges for homesteaders had originated with the Republicans.
